

TIRRA AGM March 2018

Thetis Island Solid Waste Management Report

“An Ode to Solid Waste”

Our communities' system for our Solid WASTE

It was developed, over time, NOT in HASTE

Why, we have received raves from far and WIDE

We think, even the whole CVRD is on our SIDE!

The folks who volunteer, and the staff are TOPS!

These folks are there for US, and work with PRIDE

Our system for waste management would not be HERE

Were in not for those individuals, working at FULL STRIDE!

So, PLEASE, let's stand, give a solid THANKS and CHEER

To ALL these fine folks, their commitment, and hard work

Our praise to the staff, AND to those who VOLUNTEER!

So, you folks out there, who say; “I love it HERE”!

How about doing your share, and, PLEASE,VOLUNTEER!

.....BUT WAIT, There's More.....

TIRRA AGM SWMC REPORT/March 2018

There have been no major changes or issues since the last report submitted on line and to the Quarterly, 2017.

Things seem to be going well, we are always looking for ways to improve and encourage community input, AND of course Volunteers are always needed. I am not aware of any major issues or complaints.

Things that are still in progress are; awaiting CVRD's 5-year service agreement and plan. Notification of any SW/Recycle changes which have not yet been officially mandated. These items will hopefully be addressed and dealt with late spring and or early summer 2018.

Other areas being addressed on a continuous manner are over-all site improvements, new CVRD/Provincial recycle, household waste information and guidelines. When we have compiled and received all needed information from the various government agencies, our intention would be to have a community information session.

The CVRD continues to be very supportive with our SW management challenges and assisting us with providing the community with an excellent SW system. For the immediate future we appear to be good stead.

A very special thanks to all our committed volunteers and our two SW staff, all of whom are doing a spectacular job, and keeping our essential services operating in an extremely cost-efficient manner

Please feel free to contact me, or Ernie if you need information, have suggestions and or concerns.
