

20 March, 2013

**Transportation Committee Annual Report, 2012-2013**

Only one issue has arisen in the past year. The painting of centrelines on the roads was last done in 2010, but it was done late in the year when the roads were still wet under the tree canopy, and the paint did not stick. Where the road had been dry, the centreline is still fully visible. Therefore we have written to the Transportation Ministry, requesting repainting to be timed for the dry season. We are hoping that by getting our request in early, we might move up in the priority list for this job.

Respectfully submitted,

Graeme Shelford

Chairman, TIRRA Transportation Committee
